

Mobile Order Entry Solution

A smart, mobile sales order entry solution for Retail Management Hero (RMH). Works on any Android device like handheld, smartphone or tablet.

Speed up the order entry process from both the regular and the walk-in customers.

x2x PicknScan is an Android-based multi-purpose application that enables mobile order entry for RMH. This application can be used locally like a store, warehouse, or showroom, or at a remote location using a local area network or internet.

Why ?

x2x PicknScan for Retail Management Hero

- x2x PicknScan is an Android-based multi-purpose application for in-house or remote mobile order entry for RMH.
- With PicknScan, the orders can be entered by using any android device connected through local area network or internet.
- x2x PicknScan mobile app connects to the x2x PicknScan API.
- The orders can be entered for both, the regular customers having an account in RMH; or for the walk-in customers.

Benefits of x2x PicknScan

- Eliminates manual order taking
- Better customer experience
- Reduced checkout times
- Cost savings
- Live inventory update
- Efficiency in sales and order taking
- Empowers sales reps with more data insight
- Provide valuable insight into customer behavior
